## RS Components – New isolated DC-DC converter offers a reliable, robust solution for wide range of applications

The XP Power IML02 series of medical approved DC-DC converters, available now from RS Components, offer a reliable and robust solution to a wide range of applications. The series offers both single and dual output options, for added installation flexibility. They have been constructed within a SIP7 package, for easy footprint integration. The series offers 4000VAC isolation and 1 x MOPP @ 250VAC.

The device is suitable for world wide medical approvals. It has an operating range of -40C to +85C with full load at 85C ambient.
